

10 THINGS

you leave behind
when you partner with

U.S. MESSENGER
LOGISTICS MANAGEMENT GROUP

Insurance fees

U.S. Messenger has a complete insurance portfolio for your protection, including general liability and worker's compensation.

Hidden costs

The price of sending an employee adds up quickly: cab or bus fares, or tolls, parking, and gas – not to mention lost productivity. Get a quote, and see how economical we really are.

Arduous hiring process

Don't worry about job postings, interviews, vetting or onboarding new staff. We take care of all these concerns with our comprehensive driver recruiting and development programs.

Vehicle expenses

Why look for, purchase and pay for a depreciating asset? We provide the equipment you need to accommodate anything from a single rush delivery on a bike to a weekly semi-trailer.

Delivery ranges

Don't be constrained by how far an employee is willing to drive. If you need something taken long-distance, we have Hot Shot and Next Flight Out programs at the ready.

Risk of injury

Your employees won't risk stepping off a curb and getting injured making a delivery. Our personnel are covered by our insurance in the event of an accident.

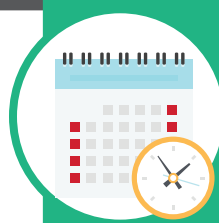

Stress & distractions

Sidestep traffic jams, security concerns, and headaches. Focus on your core business while our vetted couriers ensure your deliveries arrive on time and intact.

Inexperienced drivers

Sometimes, mapping technology isn't enough. When our drivers run into unexpected road closures or traffic jams, they have the knowledge to shift to alternate routes with confidence.

Unavailability

7pm or 2am and you need to move an important flash drive? No problem! We operate 24 hours a day, seven days a week – even on holidays.

Multiple vendors

Whether you need couriers, warehousing, dock management, next flight out delivery, or something else – U.S. Messenger can take care of your logistics needs under one roof.
